

## CS CMS

Would you like to track your patients' records, income generated and expenses incurred?

Would you also like to get daily, weekly and monthly reports on your clinic's related activities including patients' statements and financial data?

Would you like a system that is easy to use, can be shared across a network and is affordable?

CS CMS – Clinic Management System **8.0** is your solution.

CS CMS – Clinic Management System **8.0** is your solution.

- **Patients:** register and maintain your individual and company cash and credit patients, link pdf, photos, documents to their records,
- **Pharmacy:** register and maintain your stores, stock items, stock movement, and stock take,
- **Treatment:** record your patients treatment, case-based treatment, visit-based treatment, physical examinations to prescription notes,
- **Invoicing:** generate and post bills to your patients and insurance companies accounts,
- **Expenses:** register and maintain your suppliers invoices and employees expenses,
- **Payroll:** generate your employees payroll and post their respective pay slips,
- **Cash Book:** post cash receipts, payments vouchers, petty cash items and bank reconciliation,
- **General Ledger:** manage your financial data including periodic budgets,
- **Reports:** generate, print and email your operational, managerial and financial reports,
- **Report Generator:** create your own reports and export data to MS Excel spreadsheet,
- **SMS Generator:** create your own customized sms messages and export them to a CSV file, and
- **Administration:** create your users and give them access permissions, import/upload data and perform audits.
